PRESIDENT'S SPECIAL REVIEW BOARD (THE TOWER BOARD): Records, 1987

On November 25, 1986, President Reagan announced he was appointing a "special review board" to conduct a comprehensive review of the role and procedures of the National Security Council (NSC) staff in the conduct of foreign and national security policy. His need for this review was prompted by the Iran-Contra Affair involving trading arms for hostages and diverting funds to the Contras. On November 26, 1986, Reagan announced he was appointing former Senator John Tower, former Secretary of State Edmund Muskie, and former National Security Adviser Brent Scowcroft to serve as members of the Special Review Board. Sen. Tower served as the chairman of this Board, thus it became known as "The Tower Board."

The Board was specifically asked to review the NSC staff's proper role in operational activities, especially extremely sensitive diplomatic, military, and intelligence missions. They were also asked to review the implementation of the President's foreign policies by the NSC.
